## 55 YEARS OF CREATIVITY תשנ"ח-תשפ"ג

Machon Yerushalayim, The Jerusalem Institute of Talmudic Research, was founded over fifty five years ago in Jerusalem and is recognized today as the foremost publisher of Rabbinic writings. As one of the largest Jewish research institutes in the world, the Machon has produced over a thousand different volumes of some of the most important and rare Torah works. Its invaluable contribution to Torah publishing comes as the result of an unyielding commitment to strive for the highest level of Torah scholarship, research, creativity and integrity to discover and publish rare manuscripts of Jewish scholarship and

to elucidate, amend and correct errors which made their way into earlier editions of basic Jewish works.

Machon Yerushalayim has also established a number of projects to resurrect and preserve the cultural and spiritual life of European Jewry and Jewry from North Africa and the Arab lands, to memorialize the memory of those once proud communities and their leaders and engrave it in golden letters, and to publish the writings and compositions of the great scholars of previous generations.

**YEARS OF PREPARATION** - One of the multi-faceted projects underway is TSHUVOS of the GEONIM collected from manuscripts found in libraries around the world, such as the Cairo Geniza, Cambridge University and others. Scholars, professors, and a group of elite Talmidei Chachamim are meticulously working on researching, translating, deciphering and assembling the ancient manuscripts. It will be breathtaking when brought to light and published for our generation - over 1000 years later!

**MIRACLES DO HAPPEN!** Some of the manuscripts published by the Machon are no short of a miracle! The שערי תורה (page 10) was missing the first siman in one volume. It was scheduled to go to print without it, when Rabbi Yosef Buxbaum, founder of the Machon, found it "by chance" - amongst odd papers and bills in a Judaica collection just sold by someone recently widowed. The שיח יצחק (page 11) - his ksavim were flying from his hands as he scrambled to the train to the inferno in Europe begging, "Kinderlach, grab them and print them! I will be meilitz yosher for you" - these are those ksavim. The פני שלמה (page 5) manuscript was kept in the home of a grandchild who took them one day to be copied for the Machon; the next day his entire library went up in flames and only that remained. The more Yad HaShem we see, the more compelled we feel to continue publishing and bringing to light these almost lost-forever manuscripts.

### A MULTIPLE Z'CHUS! DO YOU OWN, OR KNOW OF AN UNPUBLISHED MANUSCRIPT?

Have Machon Yerushalayim assess the manuscript to see if it should be published for the invaluable benefit of Klal Yisroel!

- By unveiling the manuscript of a Gadol, you are making it possible for the Gadol's Torah to continue to be a light for all future generations bringing him a tremendous zchus. In this merit, the Gadol will surely be a meilitz yosher for you and your family.
- You can benefit Klal Yisroel by donating toward the publishing of a sefer that could otherwise be lost for generations, or by donating toward the restoration to the original text of a sefer that has accumulated numerous mistakes over the years as a result of printing and reprinting.
- Your donation will encourage and support a Torah scholar and his family as he deciphers, restores and brings to life rare manuscripts for the benefit of all Klal Yisroel. You will have a share in this invaluable labor of love.

### DEDICATIONS!

- Find out how you can sponsor a sefer, or part of, in honor of a loved one and have the eternal zechus for you and your family.
